

CoolPool — Project Meeting Summary

Date: May 18, 2026

Project: CoolPool Ride Sharing App

Discussion Type: UI/UX Improvements + Authentication + Publish Trip Flow Enhancements

Main UI & UX Decisions

Trending Routes Section

- Increase trending route font size to **3rem**.
- Move the route date display to the **right side**.

Login & Signup Screen Updates

Phone Number Input

- Increase phone number font size to **2.5rem**.
- Use **Open Sans** font style.
- Add better spacing around the phone number field.

Password Input

- Replace normal password field with **OTP-style boxes**.
- Password length fixed to **4 digits**.

Login / Signup Toggle

- Toggle background color: **#f4d8f9** with darker styling.
- Improve toggle animation and smoothness.

Text Changes

- Change “create an account” text color to **white**.
 - Capitalize “Account” in the text.
 - Reduce text clutter:
 - Change “or password or otp” to a shorter cleaner text.
 - Remove unnecessary descriptions and subheadings.
 - Keep overall UI minimal.
-

Publish Trip Form Changes

Date Selection

- Add quick selection buttons:
 - Today
 - Tomorrow
 - One Week
- Include date picker option for custom date selection.

Time Selection

- Replace time picker with a **dropdown selection**.
- Default trip creation time should start **15 minutes ahead** of current time.

Form Design Improvements

- Increase form font sizes.
- Simplify layout.
- Remove excessive descriptions/subheadings.
- Keep form minimal and cleaner.

Pricing Validation

- Maximum allowed seat amount:
 - ₹9,999 OR ₹4,999 (final value pending confirmation).
-

Success Message Improvements

- Add larger centered success animation/message.
 - Style inspiration similar to **Google Pay** success feedback.
 - Message should appear prominently in the center of the screen.
-

Authentication UX Notes

- OTP and password experience should feel modern and minimal.
 - Focus on faster login flow.
 - Cleaner spacing and bigger typography preferred throughout auth screens.
-

Design Direction

Overall product direction:

- Minimal UI
 - Larger typography
 - Cleaner spacing
 - Fewer descriptive texts
 - Faster interaction flow
 - Smooth animations and transitions
 - Mobile-first polished experience
-

Pending Clarifications

- Final maximum seat price limit:
 - ₹4,999 vs ₹9,999
 - Exact animation style for success state.
 - Final styling details for auth toggle.
-

Expected Outcome

These changes are intended to:

- Improve readability.
- Make authentication faster and more modern.
- Simplify trip publishing flow.
- Reduce UI clutter.
- Improve overall mobile app polish and usability.
- Create a more premium and smooth user experience.
